MARTOR CERAMIC BLADES. TEST NOW!

DURABLE AND SHARP

The new MARTOR ceramic blade impresses with its long service life and long-lasting sharpness. This makes it easier for you to cut a wide variety of materials. Blade changes are rarely necessary.

VERSATILE USABLE

In addition to its sharpness, the ceramic blade has special chemical and physical properties. This means your MARTOR safety knife is well equipped, even in special situations.

FLEXIBLE AND SAFE

You can use the ceramic blade flexibly in existing MARTOR handles – as an alternative to the mounted steel blade. The reliable safety technology of your safety knife protects you when cutting. You will also benefit from its comfort and ergonomics.

THE SAFER WAY TO CUT.

CERAMIC BLADE NO. 92C

TECHNICAL FEATURES

 4-cutting edge blade: for a fourfold period of use	 2-sided ground-edge: less cutting resistance	 Non-rusting: ideal also in a damp cutting environment	 Non-conductive: no transmission of electrical potential
 Non-magnetic: no adhesion of magnetic particles	 Chemically inert: no reaction with other substances	 Non-oiled: no contamination of the material to be cut	

SUITABLE FOR THESE MARTOR SAFETY KNIVES

APPROVED SAFETY

At MARTOR, using the optional ceramic blades is covered by GS testing. The GS mark certifies that our products meet the requirements of § 21 ProdSG (German Product Safety Act).

WIDE RANGE OF APPLICATIONS – EXAMPLES
