

SECUNORM MIZAR
EXHAUST YOUR WORK, NOT YOURSELF.

THE SAFER WAY TO CUT.

martor

SECUNORM MIZAR

NO. 125001

Original size

Ergonomically shaped

Right-handed? Left-handed? It makes no difference with the SECUNORM MIZAR. Its ergonomically designed, lockable squeeze grip comfortably fits all hands. Making cutting super easy. Regardless of the number of cuts you make per day.

Plastic with a content

MARTOR is committed to sustainability. SECUNORM MIZAR is another MARTOR safety knife that uses high-quality, glass fibre reinforced recycled plastic. It is also designed for subsequent recycling.

Easy blade change

No tools are needed to change the blade. Two hands can do the job. Move the 3-in-1 safety lock to position „blade change“. Swing out the lever, flip the blade cover, replace the blade. Close the cover, store the lever, continue cutting!

Multipurpose locking function

The SECUNORM MIZAR 3-in-1 safety lock is unique. Slide it to lock and unlock your cutting tool. And when necessary, move it to position 3 to safely change or rotate the blade.

2-cutting edge blade

Before you need to change the quality blade, you have the chance to turn it over once. Usage time of the blade is doubled and fatigue is held at bay: with a simple flip of the blade, your product will cut like new.

More leverage, more performance.

The slimline SECUNORM MIZAR is your gateway into our world of quality squeeze-grip knives. Instead of a slider, a lever is responsible for releasing the blade. Squeeze and cut. Thanks to a relatively large cutting depth, you can use this safety knife to cut all common cutting materials. Efficiently. Its slender, no-fuss form, simultaneously allows a wide variety of cutting styles. The fibreglass-reinforced handle comprises at least 80% recycled plastic.

Application

Safety technology

Automatic blade retraction – a high degree of safety

The SECUNORM MIZAR is equipped with automatic blade retraction: as soon as you release the lever, the blade disappears into the handle – and it stays there too. This provides a high degree of safety from cut injuries.

PRODUCT FEATURES

Technical features

	High safety		Tool-less blade change
	Abrasion resistant		Very ergonomic
	Safety lock		2-cutting edge blade
	Cutting depth		Ceramic blade compatible
	For right and left handers		Lanyard hole
