

SECUPRO MARTEGO
ALMOST TOO GOOD TO BE TRUE!

THE SAFER WAY TO CUT.

martor

SECUPRO MARTEGO

NO. 122001

Original size

Perfect handling

The advantages of the SECUPRO MARTEGO lie in your hands. The curved and lockable housing, the soft-grip for better handling, the "pre-set" cutting edge; these three factors guarantee an ergonomic experience.

4-edged blade

The Solingen quality blade, with its four sharp edges, can be rotated multiple times. It's worth it! In the meantime, a relatively small cutting depth protects your goods from unnecessary damage.

Change safely

When you need to change the blade, you can do so without any additional tools. Here, the "pull" of the SECUPRO MARTEGO is revealed: the integrated magnet ensures that the blade cannot fall out.

Everything under control

It's all about aluminium. The powder-coated metal body does not only contribute to the SECUPRO MARTEGO's extraordinary design. It credits the cutter with extreme robustness and durability.

Blade lock for extra protection

Your SECUPRO MARTEGO accompanies you on your job at every cut and turn? Glad to hear it. But always press the blue activator when you've finished cutting! This way the blade cannot make a surprise appearance.

For highest demands.

A cutting tool in which function and design go hand in hand? Meet SECUPRO MARTEGO, our prize winning lockable cutter with fully automatic blade retraction. Get used to the word “very” in its presence: it’s very safe, very robust, very ergonomic, very versatile, and made to very high standards. This cutter is not only suitable for both right and left-handed users, but also for those with larger hands.

Application

Safety technology

Fully automatic blade retraction – a very high degree of safety

The fully automatic blade retraction of the SECUPRO MARTEGO guarantees a very high degree of safety from cut injuries. The blade withdraws into the handle immediately after leaving the material being cut. Even when the lever is still being squeezed.

PRODUCT FEATURES

Technical features
