THE IDEAL COMPANION: HOLSTER FOR THE SECUNORM 610 XDR.

Another great example of MARTOR's solution-based approach: The HOLSTER 610 XDR is the perfect companion to our innovative SECUNORM 610 XDR bag opener.

SAFETY WITH SYSTEM

The SECUNORM 610 XDR is safely "parked" and always easy to access, whether you fasten the holster to yourself or to your workplace. Increase product safety, minimise the risk of loss and avoid contamination.

EFFICIENT WORKING

Users need both hands free to empty the bags they have just cut open. Just put the knife in the holster. The catch ensures the SECUNORM 610 XDR is fully secure. When open, the knife still fits perfectly and is quick to remove.

Making work easier: both hands are free and the knife is safely stored.

THE SAFER WAY TO CUT.

martor

HOLSTER 610 XDR NO. 9961

VERSATILE USAGE – EXAMPLES

Unlocked for quick removal of the safety knife.
Locked for a secure hold.

Equipped with eyelets on both sides of the holster to ensure the knife is securely held in place and therefore prevent the knife being lost.

Adjustable angle for ergonomic and efficient working, ideal for right and left-handed users.

ATTACHMENT OPTIONS

To a belt or trouser pocket using the clip on the back of the holster.

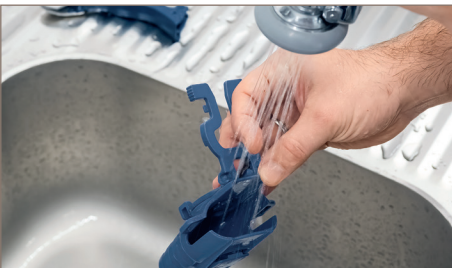

At the workplace using a bracket (not included in the scope of delivery, order NO. 9962.06).

Also use the integrated clip to attach to the bracket.

CLEANING

The HOLSTER 610 XDR is made of metal-detectable plastic. Like the SECUNORM 610 XDR, it can be cleaned under running water, with alcohol, acetone or compressed air. Then rinse and allow to completely dry.
