

TECHNICAL DATA SHEET

SECUNORM 300 POS SET
NO. 30000110

Safety technology

Automatic blade retraction – a high degree of safety

The automatic blade retraction of the SECUNORM 300 guarantees a high degree of safety from cut injuries. As soon as you have started to cut, take your thumb off the slider. Then the blade will retract into the handle immediately after leaving the material being cut.

SAFETY KNIFE WITH AUTOMATIC BLADE RETRACTION FOR ALL NORMAL CUTTING JOBS.

Order No. 30000110.09

Surprisingly light. Convincingly good. Also at the point of sale.

The SECUNORM 300 is the lightweight alternative to the SECUNORM 500. Its handle housing comprises at least 60% recycled plastic and is reinforced with glass fibre. This means that the all-round knife is ready for any number of cuts through cardboard, film, etc. It is packaged in high-quality, sturdy, and dirt-resistant POS cardboard that will attract attention in sales areas. Also practical are the ten spare blades included in this attractive set.

A tangible product experience

The perforated, FSC-certified cardboard is ideal for product presentation on a pegboard. The opening around the safety knife invites customers to handle the product and gives them a first impression of its quality.

Useful information

On the back, you can learn more about the product. Illustrations show you how and what you can cut, as well as how to

change the blade. Further information can quickly be found in the user manual inside.

Ergonomic handle

The excellent ergonomics can be felt all over the SECUNORM 300, for example in the newly shaped handle which fits comfortably into the hand. Or in details such as the nicely rounded knife end or the non-slip soft grip on the slider.

Large cutting depth

A cutting depth of 17 mm makes light work of all common cutting tasks in logistics and production, etc., as well as for high frequency cutting tasks. You can be sure your high-quality MARTOR knife will keep up to speed with any task.

Incl. ten spare blades

TRAPEZOID BLADE NO. 65232 from MARTOR is a high-quality blade made of steel. It is very sharp and has two cutting edges that can be used one after the other for a long service life. The rounded tips increase user safety.

PRODUCT FEATURES

Technical features

NO. 8852
0.63 mm, TiN-coated

BLADE CHANGE

Press the blade change button and remove the plastic insert from the rear of the handle.

Hold the **blunt** side of the blade and use it to lift the blade cover upwards. The cover remains in the open position.

Reverse or replace the blade. Make sure you place the blade **exactly** on the locating lobe.

Close the blade cover and push the plastic insert back into the handle until the blade change button **audibly** clicks.

SAFETY ADVICE

To ensure that you use your new MARTOR knife safely and most effectively, please read and note the following user-instructions. Please keep the written guide in a safe place so that you can access it at any time.

1. General application instructions: Please always use the product carefully for manual cutting work only and not for any purposes other than those that are intended. Please take the correct handling and the proper use of the knives into account in this regard. As an additional safety measure, we recommend the wearing of safe gloves.

2. Special application instructions to avoid the danger of injuries: Always take great care when handling the product. Before first use, familiarise yourself with the safety technology and how it works. Before every further use, check the knife for proper functioning. Only use cutting tools that are in perfect condition with sharp, clean and undamaged MARTOR blades. Also make sure that the knife's operation is not impaired by the material to be cut or by dirt or particle deposits around the blade. **CAUTION: The blade is sharp and can result in serious and deep cuts. Therefore, never reach into the blade!** Do not place your free hand in the line of cutting and never cut directly towards you.

3. Replacement of spare parts: Replace any blades that become dull at the right time! Use only the replacement blades from MARTOR for this purpose. Dispose of old blades in a proper fashion. They should not be placed in a waste paper bin, as this poses a considerable danger of injuries. Never perform any repairs yourself. If the knife shows signs of aging or any other wear, e.g. which impair safety features, blade changing or usage, the knife must be taken out of service and replaced. Do not modify this product in any way. Modifications of any kind may impair product safety. **CAUTION:** The risk of injury caused by manipulation of this product is extremely high.

4. Non-use of the knife: Always secure the blade in such a way (depending on product type) that injuries due to cuts are excluded. Store the knife in a secure place.

5. Care instructions: To guarantee a long service life, always keep the knife clean and do not expose it to unnecessary soiling and humidity.

CAUTION: No liability will be assumed for consequential losses. Subject to technical changes and errors! This knife does not belong in the hands of children!

ACCESSORIES

BELT HOLSTER S

NO. 9920

What do you do with your cutting tools when you are not actually using them? The MARTOR BELT HOLSTER S is a robust holder that allows you to carry all compact MARTOR knives as well as our safety scissors at all times. In addition, the compartments are designed to allow you to load different tools: for example you can also carry a pen or a pack of blades. The MARTOR BELT HOLSTER is the ideal place to stow your tools safely when moving from A to B - and have them at hand, as soon as they are required.

BELT HOLSTER XXL

NO. 9924

The BELT HOLSTER XXL is a real space miracle. With it, you not only transport your MARTOR cutting tools safely from A to B. All other work utensils are always within reach. The BELT HOLSTER XXL has two large compartments: the inner one is lockable, the outer one is equipped with a knife safety device. You are also well equipped when it comes to carrying options. Choose flexibly between strap, Velcro fastener and clip.

HOLSTER SMALL

NO. 9842

This blue plastic HOLSTER is just like the black version, only smaller. Use it to safely store and transport for example for the SECUNORM 500 or the SECUNORM 300. With this HOLSTER on your hip, your knife will always be within grasping range.

TOOL RETRACTOR

NO. 9960

The TOOL RETRACTOR protects your cutting tool from loss and from falling down. Its core is the heavy-duty Kevlar cord that can be extended up to 90 cm. As soon as you let go of your knife, it is returned to you via the flexible cord. Your hands are free for other activities – the knife always remains at hand. The carabiner is designed for your belt loop, the Kevlar look at the other end fits through the eyelet of your cutting tool.

USED BLADE CONTAINER

NO. 9810

You can fill the USED BLADE CONTAINER with the content of your SAFEBOX. Or directly with your used blades. When the box is full, turn the lid until it shuts. Now the box cannot be reopened. The next step is to safely and completely dispose of the filled USED BLADE CONTAINER as normal waste.

WALL MOUNT BRACKET USED BLADE CONTAINER

NO. 9845

Include it in your order now! With this mounting bracket you can fix your USED BLADE CONTAINER to a central location. Use the clamp and screws and nuts supplied with the product to attach it to either a pipe or a rod.

SAFEBOX

NO. 108000

The SAFEBOX is large enough to store a large number of used blades safely. And at the same time, it is compact enough to carry with you. The two slits are not only used for filling, but also to „shorten“ your snap-off blades. When your SAFEBOX is full, empty it into your USED BLADE CONTAINER.
